GS SPECIAL MOCK TEST-103 (SOLUTION)

- | | |
|---|--|
| <p>1. (C) Hind Swaraj or Indian Home Rule is a book written by Mohandas K. Gandhi in 1909. Mohandas Gandhi wrote this book in his native language, Gujarati, while traveling from London to South Africa onboard SS Kildonan Castle between November 13 and November 22, 1909. The Gujarati edition was banned by the British on its publication in India. Gandhi then translated it into English. The English edition was not banned by the British, who concluded that the book would have little impact on the English-speaking Indians' subservience to the British and British ideas. It has also been translated to French.</p> <ul style="list-style-type: none"> • The Indian Struggle, 1920-1942 is a two-part book by the Indian nationalist leader Netaji Subhash Chandra Bose that covers the 1920-1942 history of the Indian independence movement to end British imperial rule over India. • The call to young India is a book written by Lajpat Rai. In this book Lala Lajpat Rai describes the political situation of the country as it was in 1915 and a history of freedom struggle before 1915. This book is very helpful in understanding true nature and contribution of different freedom fighters of India. • Sir Surendranath Banerjea (1848-1925), a foremost political leader of Bengal, dedicated his life to opposing colonialism through moderate but liberal methods. A Nation in Making is book written by Surendranath Banerjea. <p>2. (D) Imaginary line that runs down the middle of the Pacific Ocean and mostly follows the 180 meridian, Its purpose is to mark the spot on the earth's surface where each new calendar day begins. Thus Japan is one of the countries to reach the new day while the united states is one of the last.</p> <p>4. (D) The term meiosis was introduced to biology by J.B. Farmer and J.E.S. Moore in 1905. Meiosis is a process where a single cell divides twice to produce four cells containing half the original amount of genetic information. These cells are our sex cells - sperm in males, eggs in females.</p> | <p>5. (D) Microeconomics is a branch of economics that studies the behavior of individuals and firms in making decisions regarding the allocation of scarce resources and the interactions among these individuals and firms. Consumer demand theory relates preferences for the consumption of both goods and services to the consumption expenditures; ultimately, this relationship between preferences and consumption expenditures is used to relate preferences to consumer demand curves. The link between personal preferences, consumption and the demand curve is one of the most closely studied relations in economics. It is a way of analyzing how consumers may achieve equilibrium between preferences and expenditures by maximizing utility subject to consumer budget constraints.</p> <p>7. (A) Anushilan Samiti was a Bengali Indian organization that existed in the first quarter of the twentieth century, and propounded revolutionary violence as the means for ending British rule in India. By 1902, Calcutta had three societies working under the umbrella of Anushilan Samiti. One was founded by Calcutta student Satish Chandra Basu with the patronage of Calcutta barrister Pramatha Mitra, another was led by Bengali woman Sarala Devi and the third was founded by Jatindranath Bannerjee and Aurobindo Ghosh.</p> <p>9. (C) The Charter Act of 1833 was passed in the British Parliament which renewed the East India Company's charter for another 20 years. This was also called the Government of India Act 1833 or the Saint Helena Act 1833. It was the first step in the centralization of India's administration. The ending of the East India Company's commercial activities and making it into the British Crown's trustee in administering India. Separation of the executive and the legislative functions of the council.</p> <p>10. (A) Apoptosis is a process of programmed cell death that occurs in multicellular organisms. Biochemical events lead to characteristic cell changes (morphology) and death. These changes include blebbing, cell shrinkage, nuclear fragmentation, chromatin condensation, chromosomal DNA fragmentation, and global mRNA decay.</p> |
|---|--|

11. (B) The service sectors of Indian economy that have grown faster than the economy are as follows:
- a. Information Technology (the most leading service sectors in Indian economy)
 - b. IT-enabled services (ITeS)
 - c. Telecommunications
 - d. Financial Services
 - e. Community Services
 - f. Hotels and Restaurants

15. (C)

21. (A)

- The Poona Pact refers to an agreement between B. R. Ambedkar and M. K. Gandhi on the reservation of electoral seats for the depressed classes in the legislature of then British India. It was made on the 24th of September 1932 at Yerwada Central Jail in Poona, India and was signed by Madan Mohan Malviya, Ambedkar and some other leaders as a means to end the fast that Gandhi was undertaking in jail as a protest against the decision by British Prime Minister Ramsay Macdonald to give separate electorates to Dalits for the election of members of provincial legislative assemblies in British India.
- The Quit India Movement or the India August Movement, was a movement launched at the Bombay session of the All-India Congress Committee by Mahatma Gandhi on 8 August 1942, during World War II, demanding an end to British Rule of India.
- The United Kingdom Cabinet Mission of 1946 to India aimed to discuss the transfer of power from the British government to the Indian leadership, with the aim of preserving India's unity and granting it independence.

The Shimla Conference 1945 was a meeting between the Viceroy and the major political leaders of British India at Shimla, India. Convened to agree on and approve the Wavell Plan for Indian self-government, it reached a potential agreement for the self-rule of India that provided separate representation for Muslims and reduced majority powers for both communities in their majority regions.

23. (B) Judicial independence is the concept that the judiciary needs to be kept away from the other branches of government. That is, courts should not be subject to improper influence from the other branches of government, or from private or partisan interests. Judicial Independence is vital and important to the idea of separation of powers.
24. (A) Arthur Kornberg (March 3, 1918 - October 26, 2007) was an American biochemist who won the Nobel Prize in Physiology or Medicine 1959 for his discovery of "the mechanisms in the biological synthesis of deoxyribonucleic acid (DNA)" together with Dr. Severo Ochoa of New York University. He was also awarded the Paul-Lewis Award in Enzyme Chemistry from the American Chemical Society in 1951, L.H.D. degree from Yeshiva University in 1962, as well as National Medal of Science in 1979.
25. (B) The Community Development Programmer (CDP) commenced on 1 July 2015 and is our remote employment and community development service. The CDP supports job seekers in remote Australia to build skills, address barriers and contribute to their communities through a range of flexible activities. It is designed around the unique social and labour market conditions found in remote Australia and is an essential part of the Australian Government's agenda for increasing employment and breaking the cycle of welfare dependency.
28. (B) In the midst of the World War II when a new situation developed with the participation of Japan in the War the British government was compelled to open negotiations with the Indian leaders. It was in this background that a Mission was sent under the leadership of Sir Richard Stafford Cripps' to India. This was known as the Cripps' Mission. On August 8, 1942 the Congress adopted the historic 'Quit India Resolution' which declared among other things that the immediate ending of the British rule in India was an urgent necessity.
